

Co-operative Research Resources

Tools to Build from to develop an Online Co-operative Research Network

Co-operative Research Portal - This project is funded by the Rural and Co-operatives Secretariat and managed in partnership by the Canadian Co-operative Association and the Conseil canadien de la coopération et de la mutualité. Researchers across the country contributed to this project as we continue to build a comprehensive portal of research on the most recent, relevant and significant co-operative research.

Co-operative Learning Centre - In collaboration with the International Co-operative Alliance (ICA) and the International Labour Organization (ILO), the British Columbia Institute for Co-operative Studies (BCICS) is developing the Co-operative Learning Centre (CLC) project. The aim of the project is to create a collaborative online resource for co-operatives, co-op educators, and researchers worldwide. <http://learningcentre.coop/>

Knowledge Atlas - Knowledge Atlas is a cooperative project to create a map of human knowledge. By showing how any given piece of information is connected to all others, the Atlas provides context to the world's knowledge, helping people to learn faster and understand more. <http://knowledgearlas.coop/>

Canadian Rural Research Network - The Canadian Rural Research Network (CRRN) is a new means to support information sharing and networking among stakeholders with an interest in rural research. <http://rural-research-network.blogspot.com/>
